

14 March 2011

**Your response required to complete online profile of MP attitudes towards renewable energy.**

Dear Federal MP,

**100% Renewable is a new community campaign bringing together thousands of people from across Australia who share a vision for Australia to be powered entirely by clean renewable energy.**

These community groups support investment in renewable energy because of the multiple benefits that renewable energy brings. These include the creation of tens of thousands of new jobs, billions of dollars of new investment, development for rural and regional Australia, cleaner air and water, safer healthier communities, protection for our farmland and less climate pollution.

With the price of renewable energy rapidly falling and fossil fuel energy prices on the rise investing in strong investment in renewable energy is also critical for managing energy prices.

Current policy settings are not supporting some of the most important and promising technologies that could provide large-scale, renewable base load power for Australia.

**The community groups and individuals supporting this campaign are calling for a national 'fair go for renewable energy' bill to be introduced to provide for the long term development and stability of the renewable energy sector in Australia.**

Please find included here a short briefer on why this campaign is calling for a 'fair go for renewable energy' in the form of a national feed-in tariff.

**In the middle of April the campaign will be launching a section on our website called 'where our MPs stand on renewable energy'. This public database will include a brief profile on the history of your support for renewable energy and your position on the proposed 'fair go for renewable energy' bill.**

We would like to take this opportunity to invite you to submit a short response to be included in this database - the attached survey form will help you complete your response.

Please send your response before April 15th by mail to PO Box 360 Newtown NSW, 2042 or by email to [mpresponse@100percent.org.au](mailto:mpresponse@100percent.org.au). Profiles of all MPs will be included on the website. For MPs that do not respond to this survey, this will mean profiles that list no response and no actions in support of renewable energy.

**Thank you for your assistance and we look forward to hearing how you are planning to advance the agenda of clean renewable energy in this term of parliament.**

Yours Sincerely,

Lindsay Soutar  
National Campaign Coordinator  
100% Renewable Community Campaign

Together with the following community groups all calling for strong and stable support for the renewable energy sector in Australia:

- 1 Kirrilee Boyd, Adelaide Hills Climate Action Group, Adelaide, SA
- 2 Louise Roberts, Adelaide Hills Sustainable Communities, Adelaide, SA
- 3 Russell Pearse, Ararat Greenhouse Action Group Inc., Ararat, VIC
- 4 Andrew Bray, Ballarat Renewable Energy and Zero Emissions, Ballarat, VIC
- 5 Tony Gleeson, Ballina Climate Action Group, Ballina, NSW
- 6 Fiona O'Sullivan, Bardon Transition, Bardon, QLD
- 7 John Kellett, Bathurst Community Climate Action Network, Bathurst, NSW
- 8 John Lloyd, Benalla Sustainable Future Group, Benalla, VIC
- 9 David Brownbill, Bendigo Sustainability Group, Bendigo, VIC
- 10 Sarah Hoyal, Cairns and Far North Environment Centre, Cairns, QLD
- 11 Anna McGuire, Cairns Climate Action Network, Cairns, QLD
- 12 Robyn Erwin, Chelsea Heights EarthCarers, Chelsea Heights, VIC
